Research

In dit project leer je om een branding te maken. Doormiddel van stylescapes maak je een brand guide en schrijf je een content strategy. In deze content strategy staat hoe je de branding wil delen aan de doelgroep. In dit branding project staan een logo, een identeit, eventueel merchandise, posters, en wat de doelgroep nog meer voor visualisatie zou willen hebben.

In dit project heb ik samen met mijn groepsgenoten een branding gemaakt voor Woody & Truus om hun kroegentocht te promoten om meer luisteraars naar de bruincafe's te krijgen. Ze willen met hun nieuwe versie van Smartlappen genaamd Neo-Smartlappen nieuw leven brengen in de Nederlandse volkszang.

Om te beginnen zijn we de bruincafe's gaan onderzoeken en welke kleuren, lettertypen en sfeer daarbij hoorden.

Dit was een van onze eerste indrukken van de bruincafe's. Veel bruin kleuren en donkere inhouden. Hieruit is ook een van de eerste Stylescapes gerold.

Op deze stylescape is wat feedback gevraagd en is een iteratie op gedaan.

Dit was natuurlijk een eerste indruk en stylescape die ik had gemaakt op basis van onderzoek in de bruincafe's van Eindhoven.

Interviews

Om meer informatie te krijgen hoe de bruincafe's zijn en hoe de doelgroep is in Eindhoven ben ik er zelf op uitgegaan om wat interviews te doen in de café's waar de kroegentocht gehouden wordt. Ik ben langs gegaan bij Café de Valk en Café ons Hoekske. (ons hoekske zit niet in de kroegentocht maar ik was dichtbij). Hierdoor kreeg ik een beter beeld wat de doelgroep in die bars is en hoe we eventueel het logo en brandguide hierop kunnen baseren.

Genre enjoyers

Intro: We're doing a project on branding for an artist duo that will make an album about Smartlappen in dive bars(bruin cafes). These bars are slowly disappearing and that's why they're making the album. The reason why we are doing this interview is because we want to get a better understanding of the target group, you in this case.
